INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana (a nonprofit organization), which comprise the statement of financial position as of September 30, 2016, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

MONTANA HOMEOWNERSHIP NETWORK, INC.
dba NEIGHBORWORKS MONTANA
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

1. ORGANIZATION

Montana HomeOwnership Network, Inc. dba NeighborWorks Montana (NWMT) is a nonprofit corporation dedicated to increasing home ownership and preserving affordable housing for low-income families throughout Montana. Revenue is mainly from earned income and donations, supplemented by government grants. NWMT partners with other nonprofit agencies through service agreements, contracts and loans to provide services, encourage development, and finance construction. These agencies are commonly referred to as “partners,” but the use of the term in no way suggests a formal, legal partnership exists between NWMT and the individual agencies.

The services provided by NWMT are segregated in the following program categories:

Homebuyer Education and Housing Counseling - includes the operation of a statewide partner network of local agencies which provide individual homeownership planning services to homebuyers so they are knowledgeable of all aspects of the home buying process to create successful homeownership for the long-term. Foreclosure mitigation services provide counseling, loan servicer negotiations and foreclosure prevention loans to homeowners of all incomes. These services are contracted by NWMT with local agencies.

Lending and Loan Servicing - provides down payment loans to low and moderate income families to allow them to become homeowners. Deferred mortgages bridge the gap between the home price and an affordable mortgage for the family, while amortizing mortgages allow families to reduce their down payment and avoid mortgage insurance premiums. For current homeowners, NWMT offers foreclosure mitigation loans to allow them to retain their homeownership asset.

Housing and Real Estate - encompasses new home development including new construction, factory-built homes, replacement home development using manufactured homes, and conversion of manufactured housing communities into resident-owned cooperatives. Manufactured housing is Montana's largest unsubsidized form of affordable housing. This line of business works to preserve and enhance the assets of manufactured housing homeowners.

Partner Support - provides funding to the statewide network of local agencies that offer homebuyer education, housing counseling, matched savings accounts, and housing land trust development. Expenses in this program function are pass-through funds to third parties for services provided to homebuyers and homeowners throughout the state.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements are presented in accordance with accounting principles generally accepted in the United States of America (GAAP), as codified by the Financial Accounting Standards Board (FASB). Under GAAP, NWMT is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that will be met either by actions of NWMT and/or the passage of time.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that they be maintained permanently by NWMT. Generally the donors of these assets permit NWMT to use all or part of the income earned on related investments for general or specific purposes.

Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on assets or liabilities are reported as increases or decreases in unrestricted net assets, unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restriction.

Temporarily Restricted Net Assets

NWMT has received grants from the state and federal governments that are to be used for neighborhood revitalization to increase home ownership, increase the availability of affordable rentals among low-income individuals and to preserve affordable homes. These grants are reflected as temporarily restricted net assets due to restrictions as to their purpose and/or usage over time.

Permanently Restricted Net Assets

NWMT reports capital funds from Neighborhood Reinvestment Corporation as permanently restricted. These net assets are to remain in NWMT to provide stability and financial strength.

Comparative Data

The amounts shown for the year ended September 30, 2015, in the accompanying financial statements are included to provide a basis for comparison with 2016 and present summarized totals only. Accordingly, the 2015 totals are not intended to present all information necessary for a fair presentation in conformity with GAAP. Such information should be read in conjunction with NWMT's financial statements for the year ended September 30, 2015, from which the summarized information was derived.

Reclassifications

Certain reclassifications have been made to the 2015 financial statement presentation to correspond to the current year's format. Net assets and changes in net assets are unchanged due to these reclassifications.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Tax Status

NWMT is a nonprofit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes.

Cash and Cash Equivalents

For purposes of the statement of cash flows, NWMT considers all short term investments with a maturity of three months or less, and all certificates of deposit, to be cash equivalents.

Concentration of Credit Risk for Cash Deposits

NWMT maintains deposits in various financial institutions located in Montana. The deposits are insured by federal agencies for up to \$250,000 per bank. At September 30, 2016, the amount on deposit exceeding the federally insured limit is \$2,142,757, but the institution is committed to maintaining collateral covering the excess. NWMT maintains a repurchase account where large cash balances would be on deposit for more than 30 days.

Property and Equipment

Property and equipment are recorded at cost for purchased assets and fair market value as of the date of donation for donated assets. Those assets over \$2,500 are capitalized. In the absence of donor stipulations regarding how long the contributed assets must be used, contributions of property and equipment are recorded as unrestricted support.

Depreciation is provided over the estimated useful lives of the assets using straight-line depreciation. Total depreciation expense for the year ended September 30, 2016, is \$16,277. Estimated useful lives are as follows:

Building	27.5 years
Furniture	3 - 5 years
Equipment	3 - 7 years

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

NWMT has evaluated subsequent events through December 8, 2016, which is the date the financial statements were available to be issued.

3. NOTES RECEIVABLE

NWMT makes loans to multi-family housing developers to encourage the development and preservation of affordable rentals. Loan policies are approved by the Real Estate Development and Acquisition Committee of NWMT's Board of Directors. Notes receivable are carried at the unpaid principal balance. Interest on notes receivable is accrued using the simple interest method, based on the unpaid principal balance. Interest income is recognized over the contractual life of the note receivable. Notes are placed on nonaccrual status when management believes the notes are impaired or collection of interest is doubtful. Notes receivable are considered impaired if full principal or interest payments are not anticipated to be received in accordance with the terms of the note. There were no notes considered to be impaired, nor placed on nonaccrual status, at September 30, 2016.

MONTANA HOMEOWNERSHIP NETWORK, INC.
dba NEIGHBORWORKS MONTANA
NOTES TO FINANCIAL STATEMENTS (Continued)
September 30, 2016

3. NOTES RECEIVABLE (CONTINUED)

It is NWMT's practice to charge off any note or portion of a note when management feels it will be uncollectible due to the borrower's failure to meet repayment terms, the borrower's deteriorating or deteriorated financial condition, or for other reasons. In mid-2015 NWMT's board approved a new risk rating process for its notes receivable and all outstanding loans will be reviewed using this process at least once a year. No additional allowance for uncollectible notes has been reported as management feels all notes receivable balances are fully collectible. Notes receivable are considered past due and delinquent when scheduled payments are 30 days late. None of the notes receivable balance of \$3,320,414 was in a past due status at September 30, 2016.

Notes receivable at September 30, 2016 consist of the following:

	2016
A note receivable from Homeword to incorporate environmentally friendly aspects into the Equinox II condominium complex in Missoula, Montana. There is a zero interest rate and no due date on this note.	\$ 45,000
A note receivable from Confluence-Homeword for pre-development expenses of a low-income project in Missoula, Montana. There is a zero interest rate and no due date on this note.	115,000
A note receivable from Trailer Terrace for infrastructure development financing for the Trailer Terrace park residence in Great Falls, Montana. NWMT has set aside a CD for \$60,800 in connection with the Missouri Meadows loan. A six month income reserve was required by ROC in their acquisition loan for the park in case of flooding. NWMT provided the guarantee. This was a 15 year loan commencing October 3, 2011.

4. LOANS RECEIVABLE

NWMT grants credit to low to moderate income home owners, all of whom are in Montana. The Board of Directors approves all loan policies and procedures. The Board is also responsible for the review and approval of eligible loan applications and the interest rate and repayment terms of loans that fall outside of the designated parameters.

Loans receivable with a face value of \$13,774,738, for which NWMT has the intent and the ability to hold for the foreseeable future or until either maturity or earlier prepayment, are stated net of the allowance for uncollectible loans of \$221,636 and a purchase discount of \$17,947. Management's views regarding the foreseeable future and, consequently, the intent with respect to holding these loans receivable may change due to changes in business strategies, the economic environments of the markets in which NWMT operates, general market conditions, and the availability of various government programs in which NWMT participates. Loans receivable are reviewed annually for impairment. Loans receivable are considered impaired if the face value plus accrued interest is less than the book value of the property collateralizing the mortgage. No loans receivable were considered to be impaired at September 30, 2016.

4. LOANS RECEIVABLE (CONTINUED)

Interest on the loans receivable is accrued based on the outstanding principal balance. Interest income is recognized over the contractual life of the loan receivable using the simple interest method, which results in a constant effective yield over the contractual life of the loan. Amortizing loans are interest-bearing at rates ranging between 1.0% and 7.25% per annum. Federal HOME funds are used for deferred mortgages for low to moderate income homebuyers below 80% of median income. The deferred mortgages are made at zero interest and require the borrower to repay the loan when the home is sold. Loans receivable are placed on nonaccrual status when management believes the loans are impaired. No loans receivable in hand were not accruing interest because of impairment at September 30, 2016.

The following table presents informative data of loans receivable regarding their age at September 30, 2016:

	Past due				Total Past Due	Total Loans Receivable
	0-29 days	30-59 days	60-89 days	over 90 days		
Loans receivable	<u>\$13,626,163</u>	<u>\$ 34,370</u>	<u>\$ 88,610</u>	<u>\$ 25,595</u>	<u>\$ 148,575</u>	<u>\$13,774,738</u>

Credit Risk Policies

Loans receivable are considered past due and delinquent when payments are 30 days late. The total amount of loan payments that are past due 30 days or over and still accruing interest as of September 30, 2016, is \$148,575. A loan that is 120 days past due is written off as uncollectible.

If repayment of a past due loan is expected to be obtained solely from the proceeds of selling the property that is collateral for the loan, the loan is designated as being collateral-dependent. When a collateral-dependent loan is over 120 days past due, a fair value assessment of the property that is pledged as collateral for the loan is initiated. NWMT considers the sufficiency of a loan's collateral by comparing the estimated fair value of the collateral less an estimate to cover potential expenses of foreclosure to the recorded investment in the loan, adjusted for any superior liens to which the collateral is subject. If the estimated fair value of the collateral, net of estimated foreclosure-related expenses equals or exceeds the adjusted recorded investment in the loan, the loan is judged to be sufficiently collateralized.

NWMT recognizes the allowance for uncollectible loans in an amount believed to be sufficient to absorb losses inherent in the loan portfolio, including those losses not yet specifically identifiable. Any receivables that are written off will be forgiven by Neighborhood Reinvestment Corporation, and Neighborhood Reinvestment Corporation will allow capital funds to supplement those written off. An allowance for uncollectible loans has been established based on review of loans that are in default. The allowance is established at the three year average plus one percent of each year-end pool balance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana (a nonprofit organization), which comprise the statement of financial position as of September 30, 2016, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 8, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's internal control. Accordingly, we do not express an opinion on the effectiveness of the Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control and compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's compliance.

Opinion on Each Major Federal Program

In our opinion, Montana HomeOwnership Network, Inc. dba NeighborWorks Montana complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2016.

Report on Internal Control Over Compliance

Management of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Montana HomeOwnership Network, Inc. dba NeighborWorks Montana's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
